Rock Garden - Perennials

This catalog is worth reading thru from first to last. It is not possible to emphasize on the first page all the exceptional items it contains and there are more unusual and choice rock garden plants listed herein than in any other catalog of its kind.

We wish to emphasize the fact that all the plants listed are hardy anywhere in this country and very few are difficult.

We guarantee safe delivery in good condition.

Three plants of one variety may be ordered for 2½ times the unit price; five plants of one variety for the price of four.

TERMS

NET CASH WITH ORDER

ORDER BY NAME AND NUMBER

Carriage charges paid east of the Mississippi.

Add 5% for carriage west of the Mississippi.

Add 10% for carriage and special packing to Canada, Cuba and Hawaii.

We guarantee safe delivery in good condition.

All shipments will be made at proper time for planting unless otherwise specified.

We do not substitute.

Quantity and dealers' prices on application.

Price in every case is for single plants and unless otherwise specified five of one variety will be sent for the price of four.

We cannot fill orders for less than \$1.00.

Paramount Gardens

PLAINFIELD, N. J.

I F YOU would have the best in your garden, plant the best, feed them the best and give them the best of care; all the flowers you have most admired have been produced by flower lovers who have done just that.

OF SPECIAL INTEREST

We know little of the Wild Buckwheats in the East; **ERIOCONUM OVALIFOLIUM** comes from Montana and is a find for Eastern rock gardens. Page 4.

The late Dr. Burlingham considered **DAPHNE PETREA** the handsomest of the tribe; it surely is the rarest. Page 11.

You would scarcely believe that **GYPSOPHILA CERASTIOIDES** is one of the chickweeds. Page 5.

DIANTHUS PERISTERI is one of those plants which make rockgardening a real joy. Page 4.

If you are looking for a good ground cover that is not chary of its blooms try **PHLOX STOLONIFERA**. Page 8.

PHLOX ADSURGENS is not so easy but well repays trying for it is the truest pink we know. Page 8.

FERNS are an essential in the Rockery—on page 5 you'll find an interesting list of small ferns for rock garden work.

HOUSTONIA MONTANA—imagine our cherished Quaker Lady in pink, that's Montana. Page 6.

DODECATHEONS—these lovely shooting stars lend a happy note to any kind of garden. You'll find some new ones on page 4.

If you like a splash of real firey red in your garden plant **SILENE VIRGINICA**. Page 9.

DOUGLASIA MONTANA is a true American alpine of good habit. Page 4.

You never saw a handsomer flower than **SHORTIA UNIFLORA GRANDIFLORA**, a bit rare yet. Page 9.

For a brilliant bit of yellow all summer, in some corner of your rockery you should try **DRABA AIZOIDES**. Page 4.

COREOPSIS AURICULATA NANA is a novelty but will win a permanent place once you have grown it. Page 4.

The best behaved **ARABIS** we ever saw is **BLEPHAROPHYLLA** and a unique color too. Page 3.

No more useful rock garden plant than **IRIS GRACILIPES** both in lavender and white. Page 6.

And don't overlook the **VIOLETS** on page 10.
